Art Unit: 1745

1. Claim 8 is objected to because line 6 repeats the expression "said first insulating wafer".

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1, 2, 4, 5, 7-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. (New Rejection)

The term "insulating member" found in line 18 of claim 1 and in line 17 of claim 7 finds no proper antecedent basis. Clarification is required.

Claims 2, 4, 5, dependent on claim 1, fall therewith.

In claim 8, line 10, the expression "exposed areas" does not have proper antecedent basis and amendment is required.

Claims 9-17, dependent on claim 8, fall therewith.

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Adachi shows insulating wafers found on the top side and the bottom side of a coin cell of interest.
